

**ACT OF CONSTANCY N° 1**  
**DEFINITIVE TECHNICAL CONDITIONS AND SPECIFICATIONS**  
**PHASE- MARKET RESEARCH**

**MONÓMEROS COLOMBO VENEZOLANOS S.A.**, hereinafter "**Monómeros**", hereby states that; Once the stages of observations and questions to the technical and contractual specifications required in the market research phase for the acquisition of the continuous monitoring system of nitrous oxide emissions (N<sub>2</sub>O), (CEMS), and considering that the clarifications and answers did not modify the content of Annex N° 1A - Technical Specifications - Requirements of the Goods and Services, have been fulfilled, it is requested to the **interested suppliers, to answer the questions formulated by Monómeros in - Annex 2 Quotation Format and Inquiries Regarding the Supply**, and to submit during the term granted in the schedule their budget quotation, according to the technical conditions previously defined.

For this purpose, the interested supplier must take into account that each and every one of the supplies and activities required for the effective development of the future contract must be quoted, in order to evaluate and determine the market conditions and the selection and contracting process to be carried out.

This document is an integral part of the International Open Bidding Process N° Monómeros 002-2024.

Given in the city of Barranquilla, on the fourteenth (14) day of March, 2024.03.14.
